Green Revolution Product Guide

2026

greenrevolution

LIVE LOUD!

What do you want to experience today?

Green Revolution creates unique formulations using terpenes, minor cannabinoids, and optimal CBD/THC ratios to power the full spectrum of rich, personalized experiences from relaxing to the uplifting.

CBN (Cannabinol)

Renowned for its potential sedative properties, ideal for consumers seeking relaxation and pain management.

CBG (Cannabigerol)

The 'mother' of cannabinoids, believed to possess anti-inflammatory, antibacterial, and neuroprotective benefits.

CBC (Cannabichromene)

Early studies suggest potential anti-inflammatory, antidepressant, and analgesic effects.

Combined with THC and CBD, these minor cannabinoids enhance the effectiveness of our products through the 'entourage effect'.

WHY WAIT?!

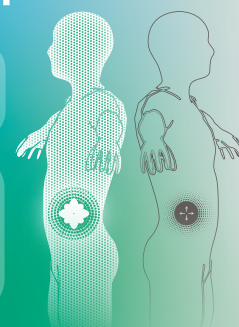

EXPERIENCE THE MARKET'S QUICKEST-ACTING CANNABIS PRODUCTS

Our advanced all-natural process boosts bioavailability to an impressive 85%. In contrast, conventional ingested edibles deliver a bioavailability rate of only 4% to 12%. This efficiency provides a cannabis experience that is 4x faster for the end user.

Unique Ratios for Customer Solutions

Engineered with distinct cannabinoid ratios, our product experiences cater to a diverse array of consumer needs. By tailoring our offerings to specific strain experiences, we ensure consistent, dependable effects for your customers.

Fly Sativa

- Fly is designed to inspire a sense of euphoria and creativity.
- Sativa sourced strains and terpene profiles
- Select products feature strategic blends of CBG for enhanced benefits

Elevate Hybrid

- Elevate is designed to enhance mood and energy.
- Hybrid sourced strains and terpene profiles
- Select products feature effective blends of CBC and CBG for enhanced benefits

Chill Indica

- 'Chill' is all about relaxation and tranquility.
- Indica sourced strains and terpene profiles
- Select products feature strategic blends of CBN for enhanced benefits

Relief CBD

- Relief is focused on overall health and well-being.
- High potency of CBD sourced from 502 partners
- Unique ratios of CBD and THC to cater to diverse consumer needs and preferences.

Our Commitment to Retail Success

Diverse Range: Our wide array of cannabis products is crafted to diversify and elevate your retail offerings.

Meet Wellness Needs: We cater to the varied wellness needs of your customers, ensuring satisfaction across different consumer profiles thanks to our unique cannabinoid ratios all natural supplements in certain products.

Fast-Acting Innovation: With our products, you provide customers with an innovative, quick-acting cannabis experience.

Enhanced Loyalty: Offering our superior products boosts customer satisfaction and cultivates loyalty.
